## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 1-9 and 15-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant has amended claim 1 to read:

**“said hollow housing being filled with a depth filter and being free of an open void volume upstream of said depth filter, which causes separation of a slurry into a particle component and a liquid component said open void volume having a height of less than about one inch.”**

The meaning of this clause is unclear. In the first two lines Applicant specifies that “an open void volume” does not exist. In the last two lines of this clause, Applicant attempts to further define “an open void volume” which is not supposed to be there. Thus, it is unclear if Applicant intends “an open void volume” to be present in the claim.

### ***Response to Arguments***

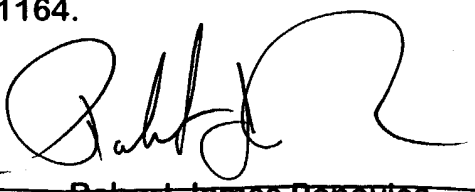

Applicant's arguments with respect to claims 1-9 and 15-17 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
